

Assembly Instruction For 32451-32453-32454CLAR

Electrical Wiring:

WARNING: The fixture wires need to be connected to DRIVER found in the backplate. Do not connect the Red and Black wire from fixture directly to power source or a Blowout/ Shortcircuit might occur.

Connect the WHITE wire of the Driver to the White/Neutral wire from electrical source using the wire nut provided. Connect the BLACK wire of the Driver to the Black/Live wire from electrical source using the wire nut provided. Connect the GROUND wire from the fixture and Ground of the electrical source with a wire nut or to the Green Ground screws on the backplate.

WARNING: Please refer to the Electrical wiring instructions provided for safety and proper procedure of electrical wiring. Consult a qualified electrician for electrical wiring if you are not familiar with electrical wiring.
