**IMPORTANT:** Turn off the power at the main fuse or circuit breaker box before starting installation

(A) Fram & Glass shade

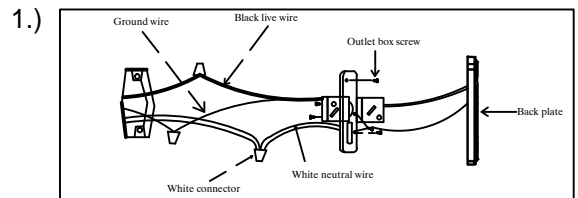

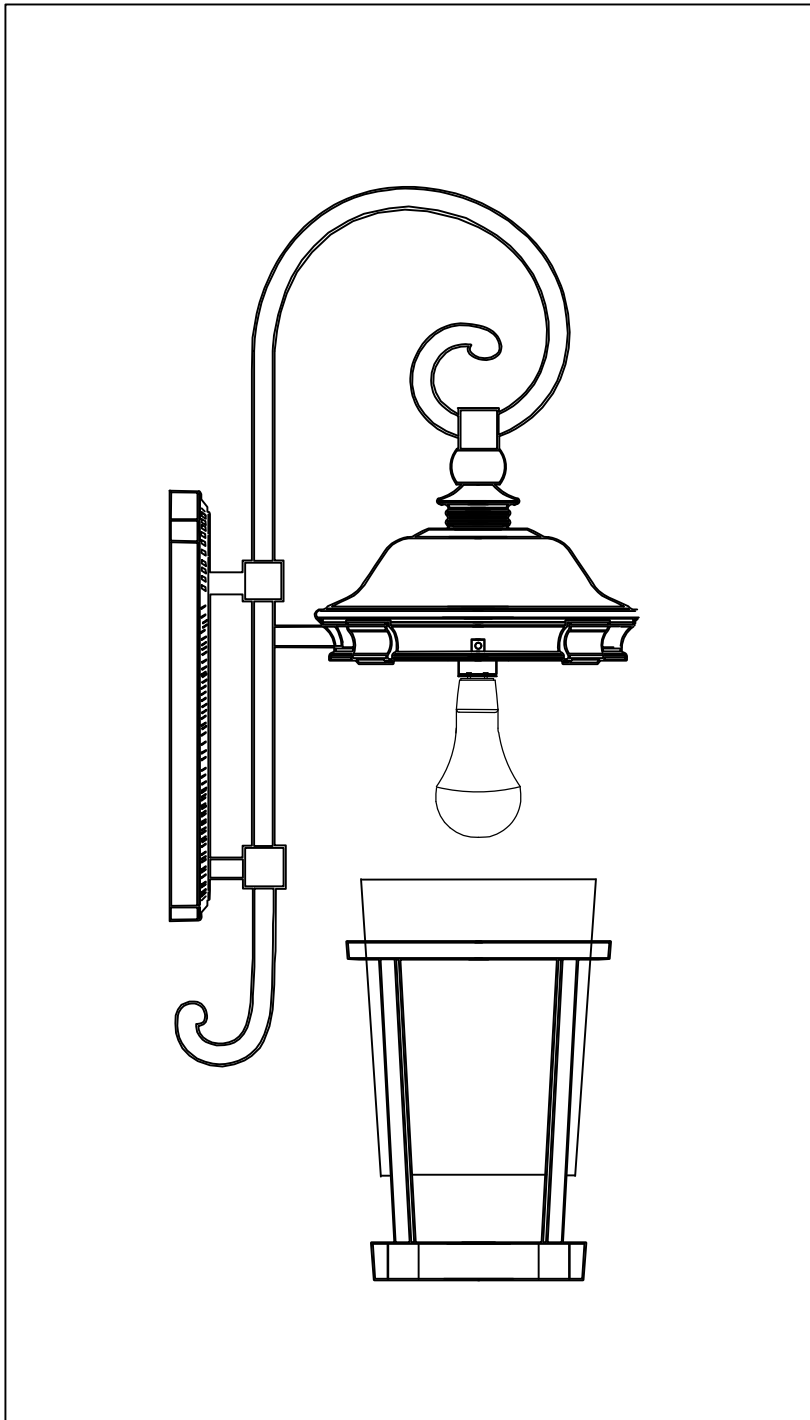

(B) Cross bar

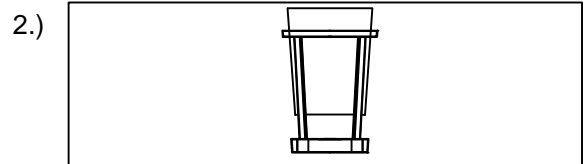

(C) Back plate with cover

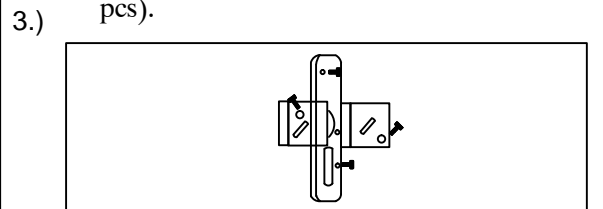

Locate all hardware & components before discarding packing

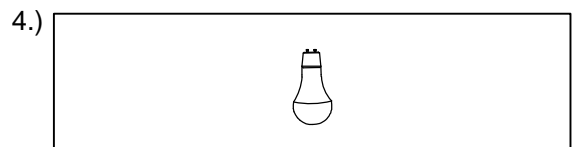

1.) Step.1: Wire fixture to wires in outlet box. Black wire is positive, white is neutral, bare wire is ground (Caution: Disconnect all power before servicing).

2.) Step.2: Inset (A) glass shade into metal frame of fixture and secure using screws on sides (2 pcs).

3.) Step.3: Remove (B) cross bar from fixture and install to outlet box using mounting screws on the cross bar.

4.) Step.4: Install bulb. See relamping label located at socket area for type and maximum allowed wattage.

5.) Step.5: Carefully tuck the wires into the outlet box as you place the back plate onto the wall. Secure fixture using finial on the protruding screws.

**Cleaning & Care:**

Clean with soft cloth and a mild detergent. Do not use abrasive cleaner.
